## MISSOURI SOCIETY OF RADIOLOGIC TECHNOLOGISTS, INC.

Dear Members,

It is my pleasure to address this brief note to the membership and supporters of the Missouri Society of Radiologic Technologists. As President, I feel very strongly about continuing the positive course that we as a professional organization have set. I am pleased to announce that this is the first of what I hope will be several News Letters that we will be providing to better serve our members.

At our 54th Annual Meeting of the MSRT, I outlined several goals that I have set for this year. These goals were presented at our Post-Convention Board of Directors

Meeting and are as follows:

1. Revitalization of in-active districts
2. Increase MSRT membership
3. Development of a computer data base on MSRT files and memberships
4. Begin to reactivate legislative activities
5. The development of a News Letter as a supplement to the RADIOGRAPHER
6. Getting our membership more involved with the organizational activities

I invite all of you to drop me a line, let me know what's on your mind. Help us to do what's right for you.

**Michael D. Ward, R.T., B.S.**

Eric E. Sumner is a Technical Sales Representative with Kodak.

### TWO WHO COULDN'T MAKE IT

**1960-61 ULYSSES D. MURRAY, R.T.** Ulysses, who really did want to come to this meeting was in Chicago,

with his sister, recuperating from cataract surgery. Further complicating the situation was a mild stroke. He is home now and is doing very well though he can no longer drive. This has severely restricted his activities for the foreseeable future. I'm sure that he would welcome any and all communications from his many friends. Ulysses related the fact that this meeting was the first he could remember missing.

1967-68 WARREN DIXON, R.T. Warren sent two communications expressing his desire to attend but was unable to do so because of work commitments. NEXT YEAR FOR SURE!
